WIPING CLOTHS

WIPING CLOTHES USED TO WIPE FOOD CONTACT SURFACES MUST BE RINSED IN A SANITIZING SOLUTION FREQUENTLY.

You want your cloth to maintain a sanitizing concentration to effectively kill bacteria.

STORE YOUR CLOTHS IN THE SANITIZING SOLUTION BETWEEN USES AND USE FREQUENTLY!

The sanitizer will not contaminate your food it evaporates quickly

WHAT'S A SANITIZING SOLUTION?

ONE capful of bleach
added to
ONE gallon of cool water

BE SURE TO CHANGE THE SOLUTION FREQUENTLY

NOTE:

Do not add soap to sanitizing solution!

Why? Soap will tie up the sanitizer. ↓

THIS WILL MAKE THE SANITIZING SOLUTION INEFFECTIVE!!!
