## GRANT COUNTY HEALTH DISTRICT HIV/AIDS SERVICES

### **Counseling and Testing**

**509-754-6060, ext 17**

High risk clients may be tested at no cost when participating in prevention education sessions:

- Men who have sex with men AND their male or female sexual partners;
- Individuals who inject drugs AND their needle-sharing and sexual partners;
- Individuals with multiple sexual partners, or with partners of unknown risk.

### **HIV Prevention Education “Partnership for Health”**

**509-754-6060, ext 17**

Support for healthcare providers in addressing transmission risks with HIV-infected individuals and those at high risk of infection.

### **HIV-AIDS Case Management**

**509-754-6060, ext 17**

HIV Case Management is a range of client centered services that ensure timely and coordinated access to primary medical care, medications, and other support services, including treatment adherence, for HIV-positive individuals.

HIV infected individuals may not know that they can get help with

- Medical or dental care;
- Transportation to appointments;
- Medical benefits;
- Prescription drugs;
- Financial aid/income assistance for disability;
- Food stamps if resources are limited;
- Care in the home;
- Emotional support;
- Housing assistance.

Case management provides help for individuals living with HIV to:

- Access primary medical care and medications;
- Identify and remove barriers to medical care; and
- Ensure adherence to a prescribed treatment plan.
